ADDENDUM NO. 1
ISSUED SEPTEMBER 30, 2026
BOROUGH OF FLEMINGTON
UNIFORM BID SPECIFICATIONS
SOLID WASTE
AND RECYCLABLE MATERIALS
COLLECTION SERVICE

BOROUGH OF FLEMINGTON, HUNTERDON COUNTY, NEW JERSEY

_____ **Addendum No. 1**– shall include answers to questions regarding the bid specifications and revised specifications.

_____ **Item I** - A bidder had requested information *Italics* and see responses **in bold**.

Q1 The bid opening is listed as 11/20 and the contract start is listed as 12/1. Is that correct? If so, would the Borough entertain extending the start date by 1 month to 1/1/27?

A1 Award and schedule subject to Council approving low bid and issuance of a contract and acceptable performance bond and insurance. The contract period will be established by this. The times in the bid would not affect anyone's proposal and will remain.

Q2 Collection Option 1 is listed as weekly trash and twice monthly recycling, excluding tipping fees. No provision for Bulk cleanup. Collection Option 2 is listed as weekly trash excluding tipping fees and twice monthly recycling including tipping fees, with a provision for Bulk. It seems odd that only recycling would be including tipping in option 2. Additionally, the proposal sheets do not match the Collection Option descriptions (only one place to put recycling pricing). Please clarify the Collection Options including or excluding tipping fees. Recycling collection will exclude processing fees for both.

A2 The bid price is changed to include tipping fees for recycling. Only one recycling collection price will be part of the proposal.

Q3 If not already intended, would the Borough be open to allowing contractors to submit a bid for trash and recycling including tipping fees? This would allow for better routing flexibility and may reduce the cost.

A3 Please bid per the specifications provided.

Q4 It is understood that each residence has been issued and will use a 96 gal container for trash and recycling. What is the expectation of the Borough for any extra material placed OUTSIDE the containers on collection day? May the contractor leave any extra material and only service the carts themselves?

A4 Borough ordinance prohibits trash from being placed outside the containers. Recycling, however, can be placed outside the containers per State mandate.

Q5 *Would the Borough be open to changing the collection day to a different day of the week at the beginning of the new contract?*

A5 Collection days will be as per the bid spec.

_____ **Item 2** – The uniformed bid specification has been revised to address the processing fee issue in the recycling section and Addendum 1 added to the proposal sheet.

Addendum #1 is also available on the Borough Website www.historicflemington.com and emailing rmartucci@martuccienglc.com .

By Order of the Borough of Flemington Mayor and Council
Marcia Karrow, Mayor
